

# Orbis Data for 4 Countries

## Enterprise Survey (India): Standard effects of collateral constraint

Table 1: Collateral constraint and labor share

	Unconstrained mean	constrained mean
labor_share	.17071	.1971271
Observations	2753	671

## Enterprise Survey (India): Non-standard effects of collateral constraint

Table 2: Collateral constraint and education of workers

	Unconstrained mean	constrained mean
Average years of education	9.545587	9.09687
Observations	2753	671

Table 3: Collateral constraint and training

	Unconstrained mean	constrained mean
Firm has formal training program	1.543046	1.524112
Observations	3624	788

Table 4: Collateral constraint and proportion of training towards skilled labor

	Unconstrained mean	constrained mean
proportion of formal training towards skilled labor	.5309755	.5095277
Observations	832	192

## ASI: Standard effects of collateral constraint

Table 5: Collateral constraint and labor share

	Least constrained mean	Most constrained mean
Labor Share	.2495291	.3951985
Observations	255505	133690

## ASI: non-standard effects of collateral constraint

Table 6: Collateral constraint and proportion of skilled labor

	Least constrained mean	Most constrained mean
Proportion of skilled workers	.1225865	.1232887
Observations	244937	127603

Table 7: Collateral constraint and sales per worker

	Least constrained mean	Most constrained mean
Sales per worker (thousand rupees)	4327.506	3927.176
Observations	220164	116441
